Contact a Tutor for Hourly Rate Information.

These students all did very well in either PHY 201 and PHY 211. They are free-lanced private tutors who took classes with Dr. Sean P. McBride. As Dr SPM Approved Tutors, this is a service not associated with the Tutoring Services at the University or the Physics program.

As free-lance tutors, they cannot use any College of Science (COS) assets & resources (i.e., including: class room space, equipment, models, supplies, etc. in/or from the College of Science). I suggest meeting in a populated public space like the campus library for tutoring sessions. (Updated 1-19-2025)
